

BAS RELIEF BEVELS & FRAMES

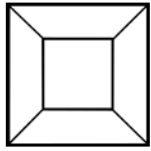

Introducing exciting, new dimensional tiles from Pratt & Larson's Bas Relief collection!

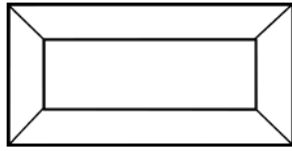

Our beveled tiles have been a consistently popular tile selection for decades. We've recently expanded our offering to include larger format bevels as well as an exciting new 8x8 pyramid. The Frame tiles are a brand new addition to Bas Relief series. These were designed to be a clean, contemporary version of the classic bevel. We offer the outer "frame" portion of these tiles in either a raised or recessed format. All of the bevels and frames fall into the Bas Relief price group.

Thank you for your interest in Pratt & Larson. If you'd like to receive more information about our product offering, please visit our website <http://www.prattandlarson.com/dealer.php> to locate a dealer near you.
