

PRATT + LARSON

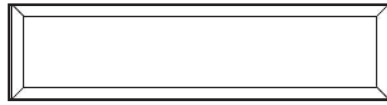

BEVELS & FRAMES

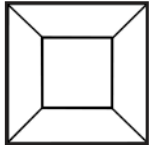

Our beveled tiles have been a consistently popular tile selection for decades. The Frame tiles are a more recent addition to Bas Relief series. These were designed to be a clean, contemporary version of the classic bevel. We offer the outer “frame” portion of these tiles in either a raised or recessed format. Bevel and frame tiles may be ordered in any of our glaze colors.

Thank you for your interest in Pratt & Larson. If you’d like to receive more information about our product offering, please visit our website <http://www.prattandlarson.com/dealer.php> to locate a dealer near you.
