

**PRATT + LARSON**

**KAT + ROGER**

## KAT + ROGER

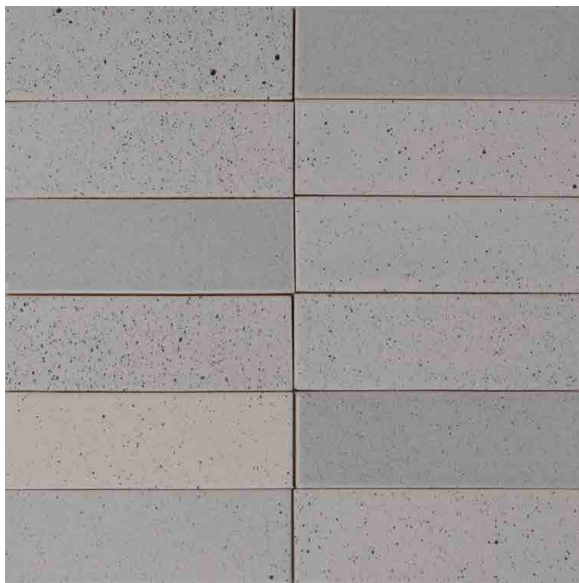

Our collaboration with L.A.-based artists Kat + Roger transforms their modern ceramics into a stunning tile range evoking a timeless desert dream. Each tile starts with a rich red underglaze, combining special techniques to mirror the craftsmanship of Kat + Roger's work. Mix and match an earthy 10-color palette with three sizes of field tile and a 6x6 bespoke 'arc' to enrich your space.

If you've ever wanted to unroll a Kat + Roger vessel in your home, let our dreamy collection spark inspiration.

We're excited to bring Kat + Roger's vibe to your space with this gorgeous tile, carefully crafted at our studio in Portland, Oregon.

## KAT + ROGER GLAZES

Like all Pratt + Larson glazes, Kat + Roger glazes have variation in color and surface. All of these glazes are Variation Level 3. Expect range in both the hue and value of the color and the coverage and size of the speckles. Speckles can vary from a light mist to a heavier spot and everything in between, emulating Kat + Roger's rich iron spot pottery.

## The Hand Painted Arc

The Arc is an elemental piece of Kat + Roger's design work. Repeat the same color combination or work with multiple colors and rotations to create bold graphic designs. Use high contrasting color combinations for a feeling closer to Kat + Roger's pottery or choose a quieter combination to create a look all your own.

Choose two Kat + Roger glazes to create the Arc.

Glaze 1 refers to the small crescent and Glaze 2 fills the quarter circle.

Please specify color placement when ordering.
