

## Our mission is enrichment.

At Pratt + Larson, we are on a mission to enrich people's lives and experiences through the art of ceramics. Since 1982, we've reimagined the possibilities of tilemaking — blending modern aesthetics with timeless techniques to create shapes, textures, and glazes that enchant and endure.

As a women-owned business rooted in Portland's vibrant creative community, we're proud to champion artistry and foster long-term career growth for the talented makers who breathe life into every tile.

### Capabilities

- Our **handmade ceramic tiles** reflect a level of artistry and craftsmanship, yielding distinctive results that mass production simply can't match.
- Our **expansive collection** offers endless possibilities in glazes, textures, and patterns and our **custom capabilities** are unparalleled.
- **Collaboration** is at our core. We partner with designers, architects, contractors, and developers to transform creative concepts into remarkable environments.

### Environmental Responsibility

- All of our tiles are shipped using **recycled and recyclable packaging** materials.
- We power our process with 100% Clean Wind Renewable Energy.
- Our products may qualify for **LEED** regional credits and LEED Low Emitting materials credits within 500 miles of Portland.
- All of our tile is **100% lead-free**, with most glazes Red List Free.
